

Application for Setting Up a Computer Club

Question: Suppose, you are Rahim now, write an application to your headmaster for setting up a computer club in your school.

Answer:

3 February 2014

The Headmaster

X high school, Dhaka.

Subject: prayer for setting up a computer club in the school.

Dear Sir,

This is to inform you that we are keenly interested in the latest gift of science, computer. But in spite of a famous madrasah, our school has not yet taken steps for setting up a computer club which is necessary to develop the academic stands of our school. To cope with modern information technology, computer education has already been included in the JDC curriculum. As a result, we are in need of a computer club.

I would like to request you to take steps for setting up a computer club to widen the horizon of our knowledge and oblige thereby.

Sincerely yours,

Atik

On behalf of the students of X high school, Dhaka

Application for Setting Up a Computer Club

Question: Write an application to the headmaster for setting up a

computer club.

Answer:

The Headmaster,
X School, Dhaka.

Subject: Prayer for setting up a computer club.

Sir,

We, the students of your school, beg to draw your kind attention to the following fact that there is no computer club in our school. Ours is an age of science. Science is inventing and discovering newer and newer things day by day. The computer is one of them. It is Aladin's magic wand, so to say. It has now become an essential part of our modern life. It has greatly benefitted us and brought about revolutionary changes in our life. To speak the very truth, we can not do a single day without a computer. Its usefulness can not be described in words. We are lagging far behind in comparison with the developed countries. But it is a matter of great regret that there is no computer club in our school. It will enable us to know more about the computer in future. Moreover, there are many brilliant science students in our school. In future, they may carry their higher studies on computer science and one day they may be computer scientists.

Under the above circumstances, we pray and hope that your honour would be kind enough to realize the problems we face for want of a computer club and consider the matter sympathetically and set up a computer club.

We remain,
Sir,

Your most obedient student,

Atiqur Rahman

On behalf of the students of your school
