The Game You Like Best (Football)

Hints: introduction, field, description, how played, rules, usefulness, conclusion

Football is not a native game. It was first played in England. Nowadays, it is played in all countries of the world. A plain field is necessary for these games. It is about 120 yards long and 80 yards broad. There are border lines all around the field. There are two goal posts on each side of the two sides. The goal-posts are 8 yards apart. The game of football is played between two teams. Each team has a goal-keeper. There are two backs, three half-backs and five forwards in each team. There is a referee to conduct the game. Their referee is helped by the linesmen. The referee has whistled which he blows to pass any order. In the field his decision is final. The game is played for one and half an hour. There is an interval of 10 minutes. First of all, the ball is placed in the middle of the field. As the referee blows the whistle, a player of one party kicks the ball. Thus the game begins. Each party tries to pass the ball through the goal-posts of the opposite party. The team which scores more goals wins the game. The game has some rules. The player's boy those rules during the game on the player can touch the ball with hands. Only the goalkeeper can touch it. The game is good for health. It makes to players prompt, careful, strong and hardy. It also teaches obedience to rules. Football is not a very costly game. I like the game most and play it regularly.
