My dear father,

I am very glad to learn from your letter that you are all well in the family.

The result of my final examination has been published. You will certainly be happy that I have stood first in the examination. I have also secured good marks in all the subjects. So, all the teachers of my school praised me highly. Recently, our classes have been started and our teachers have suggested we buy some important books. I also feel the necessity of those books. They will cost about one thousand takas.

Please send me the money as soon as possible. With best regard to you and love to all.

Yours ever,

Laboni Akhter
