

## Paragraph on A Picnic I have Enjoyed

The picnic is a source of pleasure and enjoyment. The hours spent in a picnic are always exciting and thrilling. Last month I along with some of my friends had a picnic at Mondragon, a place of historical interest. On the fixed day, we hired a minibus to go to the picnic spot. We took all the necessary foodstuff and utensils with us. We started for the place at 8 a.m. finishing our breakfast. We reached sonnargaon at a.m. after visiting the nearby area, we sat down to give our food. We ate to our heart's content. Our artists amused us with their music. Then we went to visit the folk art museum of sonargaon. With tickets, we entered the main area. We visited all the historical relics and saw famous things. We also visited the palace of Ishakha. One of our friends took several snaps of the important sights. We also played cricket there for about 30 minutes. We returned home just after the evening prayer. It was really an enjoyable picnic.
