Answer: Some days ago my college was closed and I got an opportunity to visit the National Zoo. It is located at Mirpur in Dhaka. This zoo covers a vast area. Earlier visited some small zoos and saw only a few wild birds and animals. But this visit offered me an opportunity to see a huge number of birds and animals. I felt a great attraction to the birds and animals which I had not seen before. At first, I went to the cages of the Royal Bengal Tiger. I watched the tigers with a lot of amazement. My next new experience was to see the lions. The arrogant movement of the lions and lionesses fascinated me a lot. Then one by one I moved to see the other animals. I saw the giraffes, the zebras, the spotted deer, the leopards, the wolves, the porcupines, the hyenas, the elephants, the hippopotamuses, the bears, the crocodiles and the rhinoceros. I spent a long time when I reached the cages of the apes. With a lot of curiosity and amazement, I watched the chimpanzees, the gorillas, the gibbons, and the orangutangs. When I moved to see the birds I was fascinated by the peacocks, the eagles, the vultures, and the buzzards. It was a visit worth remembering.
