

Paragraph on Acid Throwing

Answer: Answer the following questions to form a continuous paragraph. (100 words)

Is acid throwing a crime? Who throws acids?

Why do people throw acids?

What happens to the victims?

How can we stop it?

Question: Acid throwing is one of the most heinous crimes. In our country, nowadays we read about the incidents of acid throwing in the dailies. In most cases, it is seen that women and children are the worst victims of acid throwing. The incident of acid throwing takes place due to mainly two reasons. One is family enmity, another one is the rejection of love. If two families fall into enmity on different issues often one of them takes the path of savage vengeance and throws acid in the women and children of the opponent side. Again, if any youth is rejected in his love by the girl he loves, he also may throw acid on the girl. The acid victims suffer from unbearable pain as the skin of the acid-thrown part of the body gets burnt. Government. must take punitive action against the acid throwers. The involved criminal should be tried in a summary trial and must be awarded a death sentence. The government, non-government, and socio-cultural organizations should come forward to launch a campaign against this crime.

Paragraph on Acid Throwing

Question: Write a paragraph about 'Acid Throwing' by answering the questions below.

Is acid throwing a crime?
Who throws acids?
Why do people throw acids?
What happens to the victims?
How can we stop it?

Answer: Acid throwing is a heinous and barbarous act. It is very rampant in our society nowadays. This barbarous act is increasing day by day. If any youth proposes love to a young girl and if he is refused, that youth becomes furious and tries to take revenge. Being tempted to take revenge, a refused lover throws acid on the girl. We can see the incidents of acid throwing every day when we cast our eyes on the newspaper. When a man is dominated by animality instead of rationality, he takes recourse to such a heinous act. The effect of acid throwing is very dreadful and tragic. In most cases, the victims succumb to injuries. Those who survive drag a miserable existence only. Sometimes the victims become deformed and their looks become very ugly. As a result, they can never be handed to marriage. Their lives become pitiable. The acid should not be at all easily available to the public. The government should take rigorous steps to end this sort of act from society.
