Question: Write a paragraph about 'E-mail' by answering the questions below.

What is e-mail?

How does it help communication?

How does it help students?

What are the benefits of using e-mail?

Why do trade and commerce depend on e-mail?

Who can have an e-mail connection?

Why should the young generation have knowledge of e-mail?

Answer: Electronic mail is popularly known as 'e-mail'. It is a wonderful invention of the communication technology of our modern science. It has brought a dramatic change in the mode of communication. E-mail is very helpful for the students. They require to study many books. But all are not available in the libraries of their schools, colleges, and universities. E-mail offers them the opportunity to collect any information from any book. It is very easy to use. Besides, by using e-mail the users can save their time. It has other advantages. It reduces the consumption of paper in the offices. So, e-mail saves money as well as time. Through e-mail, messages can be transmitted from one country to another within seconds. It is cheaper than telephone calls. So nowadays trade and commerce have become greatly dependent on this speedy type of communication. But e-mail is not being widely used in our country'. To adjust to the modern world the young generation of our country must be habituated to using e-mail.

Or,

E-mail
