

Paragraph on Emus

Question: Write a paragraph on 'Emus' by answering the following questions.

What are Emus?

Where do they live?

How do the Emus walk?

What happens when they walk one after another in line?

Answer: Emus are the Australian birds. They look very nice. They look excellent when they walk together in a line. Emus live in the wild space of the Australian hill. The place is cool and vast. The Emus walk-in kingly silhouette one after another. These birds are very tall. When they walk one after another in line, they never make haste. They seem very silent like peace and calm. A strange and new event occurs when Emus grandly pace. From the narrow place, one observes them filing past, in the great central space silent and vast. Indeed Emus are one of the wonderful creatures.
