

# Paragraph on How to Behave with Parents

Parents are next to God in this world. They are the most respectable persons. They gave us birth and we are able to see the beautiful world. They reared us when we were completely helpless. So, you must learn how to behave with them. First of all, respect and abide by them. Don't do anything which may hurt them. Help them in their works. Nurse them when they are sick. Feed them when they get old. Don't be rude, cruel or harsh with them. Talk to them politely. Don't irritate them. Be friendly and frank with them. Don't lie with them. Don't raise your voice while talking to them.
