

Paragraph on How to Make Birds on Strings

To make the Birds on Strings is not an easy task. Before making it, a person has to collect a wire hanger, 4 pieces of string, colored paper, scissors, and glue. Then he should follow the instructions: Firstly, 8 birds from the papers should be cut. Then he can copy the birds on the papers if he likes. Secondly, glue should be put on one side of a bird and he can lay a string across it. Gradually, he can place another bird on to press it to dowse and glue a bird on each string like this. For an eye, he can add a circle. Finally, he can tie the strings in different places on the hanger. Then he can hang up his 'Birds on Strings' and they look very be artful.
