Answer: I am now seventeen years old. I am a student of Class XI. Five years back my role in my family was insignificant. But at present, I have an important role to play in my family in any important decision-making affair. If I give my views on any matter my views are considered with importance. After ten years from now, it will be more important because then I hope I shall be in practical life. I will be earning income and I shall be an important member of my family. Maybe my decision on any matter will be final. After ten years I hope to live with my parents. Of course, I shall help all the members of my family in all possible ways. It's my noble duty to help them because they have done a lot in building up my life. I shall help them in such a way that they do not feel any want of anything. I shall try to look after them as they did for me in my childhood. Indeed, it's my sincere desire to serve and help them.
