### My Visit to A Hospital to See One of My Ailing Friends

**Answer:** My friend Rafiq had been suffering from typhoid for a long time. Suddenly his condition deteriorated. So, he was taken to Dhaka Medical College Hospital. Receiving this news, I rushed to the hospital to see him. I found him seriously ill. To my utter surprise, I saw that the doctors were not cordial at all. They did not take any care of him. Even they misbehaved with his parents. Though he had been hospitalized yesterday. he had not been given any medicine. Moreover. the room was not hygienic. The total atmosphere was unwholesome for the patient. I was very much disgusted at this. So, I suggested his parents take him to a private clinic for better treatment.
