

## Paragraph on Pass Time/Leisure Period

Leisure means being free from all kinds of physical labor, mental conflicts, and responsibilities. People spend their leisure willingly. Village people spend their leisure by gossiping, playing cards, hearing the radio, etc.. City people spend their leisure by watching T.V., cinemas, and gossiping. They play common games like cricket and football. They sometimes go to theaters, concert halls, and open places. On holidays, they go to their village homes to visit their relatives. Many remain busy with internet browsing. In winter, people make cakes and drink date juice. Football, ha-do-do, badminton, and volleyball are popular games at that time. During my leisure period, I like to travel most. Because it helps to know the unknown and see the unseen.
